

## Provider and Stakeholder Meetings

As you are aware, the Department of Human Services has engaged in a broad effort to look at how the state can best serve South Dakota's I/DD population. Align has been contracted by the DHS to conduct the assessment of the current system of services. Critical to this assessment is the input of Service Providers. We need to hear from you on what is working in the current system, what is not working, and what services or options you think are needed.

Please join us at one of our Provider and Stakeholder Meetings to give us your feedback. We will be holding meetings in multiple cities in South Dakota to get as much feedback as possible. Additionally, we will be offering online access to the meeting for Stakeholders who cannot attend in person. We are very excited to have the opportunity to meet with you and gather your opinion and input! We hope to see you at one of the meetings.
